

# Combination Control

**AquaSmart**® Boiler Control & **GeniSys**® Burner Control

*Beckett*  
PARTS & ACCESSORIES

## Product Sheet - Part No. 52199

**Upgrade to Microprocessor Based Burner and Boiler Control  
with 10% Fuel Savings Guaranteed!**

### Description

The Beckett AquaSmart / GeniSys Combination Control is designed to replace the Honeywell R8182H. The boiler control mounts in the same space on the boiler and can use the existing well for temperature sensing. Burner control includes junction box for mounting. Includes the Beckett guarantee of 10% in annual fuel savings.

### Features & Benefits

- More precise burner and boiler control using microprocessor technology.
- DOE2012 Compliant Energy Saving Algorithm.
- Circulator-off delay to move additional heat into living areas.
- Temperature probe uses existing well.
- Priority override for domestic hot water.
- Cycle history and diagnostics
- Customizable pre-time and post-time settings on the oil primary.
- Status lights on oil primary for system monitoring and diagnostics.
- Oil primary compatible with Contractor Diagnostic Tool
- Welded relay protection
- 5-Year Warranty

All necessary wires are labeled and located under the 4x4 box extension.
